

*Thank you for your interest in Studywiz*

## Studywiz Demonstration Account

Your demonstration account consists of two main areas. The first area (2 Science 9A) is designed as a demo area to view and experience Studywiz with content already populating the system. Please feel free to use this to give colleagues an idea of how the system works. This Science class is shared with many other users so we request that you restrict your activity creation to your ascribed demonstration classes. Anything created in the 'Global' space is also seen by all users.

You will also see a folder containing Quick Start Guides. These guides explain how to create Studywiz Activities in easy to follow steps. In the top right of the Studywiz window you will find online help.

There are 2 classes for you and your colleagues to create and share activities.

**Demonstration URL:** <http://demo6.studywiz.com>

Student Usernames	Teacher Usernames	Parent Usernames
s271	t271	p271
s272	t272	p272
s273	t273	p273
s274	t274	p274
s275	t275	p275
Password for all accounts		studywiz1

## Using the demonstration accounts

To get started, log into the Learning Environment using one of the Teacher accounts. From the *Learning* tab, select the *2 Science 9A Class*, click on *Folders* in the left panel and then click on *Our Solar System*. To begin to explore the range of Activities available in Studywiz choose any of the subfolders and select Studywiz Activities by clicking on the linked titles.

You can also explore these Activities in the same way logged into one of the Student accounts.

## eLocker 2 for iOS app

If you would like to try our eLocker 2 for iOS app which works on iPad, iPhone and iPod Touch you can download the app for free from the App Store using this link:

<http://itunes.apple.com/gb/app/elocker-2-for-studywiz/id437446722?mt=8>

The help guide for eLocker 2 can be downloaded using this link:
